

RECYCLING DO'S & DON'TS

DO Rinse all bottles and cans **BEFORE** you recycle them. Rinsing prevents odors and the spread of germs, eliminates bugs and reduces the chance of animals getting into your containers.

DO recycle **newspapers and mixed papers and chipboard together**. **DON'T** place newspapers and mixed paper or chipboard in with cardboard.

DON'T mix with your commingled recycling, drinking glasses, window glass, auto glass, mirrors, ceramic cups and plates, clay bottles or flower pots, toys, pots and pans/ovenware, garden hoses, plastic wraps, foams, plastic 6-pack beverage holders, audio & video cassettes and extension cords. These items should go into the trash.

DO recycle soft and hard covered books with your mixed paper. (Do not need to remove hard cover)

DON'T mix with your mixed paper; tissues, napkins, paper towels, cups or paper soiled with food or liquids.

DO remove packing materials from cardboard boxes. Place foam, plastic and wood packing materials in the trash. Place paper packing material in the Mixed Paper Bin.

Tinton Falls Residents Guide To Recycling In Multi-Family Homes

ITEMS THAT MUST BE RECYCLED:

NEWSPAPERS & MIXED PAPER & CHIPBOARD

Description: Newspapers including the inserts. Mail, Magazines, Paper back books, Office, Colored & Computer Paper, Regular and Window Envelopes, Glossy Inserts and Chipboard.

Preparation: Place in your communal recycling bin designated for mixed paper and newspapers and chipboard.

Newspapers, mixed paper, magazines and chipboard can be mixed together and do not have to be tied if the papers are placed in a bin.

CHIPBOARD

Description: Chipboard is similar to a very thin cardboard. It comes in different forms; like cereal boxes, shoe boxes, gift boxes, macaroni boxes, toilet paper rolls, paper towel rolls, the box that canned soda comes in, wrapping paper rolls.

Preparation: Break down (**flatten**) and place in a communal bin for newspaper, mixed paper and chipboard.

CORRUGATED CARDBOARD

Description: Layered cardboard with center that is shaped into ridges, folds or grooves.

Preparation: Flatten Or break down and place in a communal bin for Cardboard only.

NEW RECYCLABLE ITEMS:

ALUMINUM PIE /FOOD TINS, BALLED ALUMINUM FOIL

Rinse all food waste before recycling.

PLASTIC TUBS & LIDS, PLASTIC SCREW TOP JARS

Description:

Plastic Tubs lids like yogurt, cottage cheese, peanut butter jars, baby wipe containers and take out containers.

Preparation:

All items must be rinsed of food residue. Recycle with Commingled Bottles and Cans.

NOTE: Plastic bags used to carry your recyclables must be placed in TRASH containers or they may be brought to the Borough Recycling Center to be recycled.

COMMINGLED (mixed) BOTTLES & CANS

Description:

Clear, Green and Brown Glass Bottles and Jars, Aluminum, Steel & Tin Cans, Plastic Bottles, Plastic Tubs & lids, Aluminum pie/food tins, balled aluminum foil.

Preparation:

Rinse containers until clean and free of debris and place items in the containers provided at your communal recycling area.

Comingled

DID YOU KNOW THAT.....

Glass bottles and jars can be recycled into new glass and that the energy we save from recycling *one* glass bottle will light a 100-watt light bulb for four hours.

Every ton of paper made from recycled materials saves 17 trees and 7,000 gallons of water.
