

On Nov. 1, 2018, the NJ Turnpike Authority (NJTA) began a construction project to make improvements to Garden State Parkway Interchange 109 at Newman Springs Road (C.R. 520) in the Lincroft section of Middletown. The work includes the installation of a new bridge providing direct access from C.R. 520 EB to GSP NB, eliminating the existing U-turn. The work also includes the installation of new traffic signals at Schultz Drive and Half Mile Road and widening of C.R. 520. Work is expected to be complete in the summer of 2020. Motorists are advised to expect delays and plan alternate routes if possible.
