OCTOBER

SEWER MAINTENANCE

Tinton Falls maintains all public sanitary sewer mains within the Borough. Residents are responsible for the sewer lateral from their property to the sewer main in the street. When a sewer back up or other problem occurs, in most cases it will not be obvious whether the problem area is in the sewer lateral or the public main. If this occurs, call the Tinton Falls Public Works Department at 732-542-3400 Ext. 4 to come out to inspect the public sewer main free of charge. If the problem is found within the public main, it will be repaired as soon as possible. If the public main is found to be clear, the property owner will be informed that the blockage is likely in the sewer lateral. In this case, the property owner is responsible for the repair.

STORM DRAINS

Storm drains need to be kept clean and free of clutter in order to function properly. Do not pour any hazardous products down a storm drain. Do not place brush, branches, or leaves within 10 feet of a storm drain. Clean up after your pet. Do not litter, it may end up in a waterway. If you notice a clogged or damaged storm drain, please contact the Tinton falls Department of Public Works.

Fire and EMS volunteers are needed. Contact 732-542-5561 or Email info@tintonfallsems.org for more information.
